Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Original)   A method comprising:

transmitting, from an application computer connected to a data network to a call processing device connected to said data network, over said data network, packetized messages indicative of telephone calls in progress at an endpoint of said data network, or indicative of said endpoint, said application computer being located separately from said endpoint; and

transmitting, from said call processing device to said application computer over said data network, packetized messages indicative of the length of said telephone calls.

2. (Currently Amended)   The method of Claim 1, ~~where the information includes~~ wherein said packetized messages include the originating IP address of the call.

3. (Currently Amended)   The method of Claim 1, ~~where the information includes~~ wherein said packetized messages include the words exchanged in the call.

4. (Original)   A method comprising:

transmitting, from an application computer connected to a data network to a call

processing device connected to said data network, over said data network, packetized

messages indicative of telephone calls in progress at an endpoint of said data network, or

indicative of said endpoint, said application computer being located separately from said

endpoint; and

transmitting, from said call processing device to said application computer over

said data network, packetized messages indicative of the information in said telephone

calls.

5. (Currently Amended)   The method of Claim 4, ~~where the~~ wherein said

information includes the originating IP address of the call.

6. (Currently Amended)   The method of Claim 4, ~~where the~~ wherein said

information includes the words exchanged in the call.

7. (Original)   A method comprising:

transmitting, from an application computer communicably connected to a call

processing device which is connected to a data network, packetized messages indicative

of telephone calls in progress at an endpoint of said data network, or indicative of said

endpoint; and

transmitting, from said call processing device to said application computer,

packetized messages indicative of the information in said telephone calls.

8. (Currently Amended)   The method of Claim 7, ~~where the~~ <u>wherein said</u>

information includes the originating IP address of the call.

9. (Currently Amended)   The method of Claim 7, ~~where the~~ <u>wherein said</u>

information includes the words exchanged in the call.
